TO WHOM IT MAY CONCERN:

I highly recommend Rhythmic Reading with Rap written by Mr. Vincent Taylor as supplementary activities for students in the elementary grades. This innovative method of teaching is fun and educational as well. Two of the third grade teachers have been using the Rhythmic Reading with Rap activities since February. There has been a significant gain over the previous year in the third grade test scores.

We are an America's Choice School that bases our instruction on students achieving high standards. Rhythmic Reading has been an excellent supplement in those two classes in helping students to reach higher achievement goals.

Sincerely,

Rosa Thomas
